

HEINE® HSL150 HAND-HELD SLIT LAMP

The ideal portable solution for the examination of the anterior segment.
Light, mobile and easy to use.

The HSL150 features bright, white XHL Xenon Halogen illumination comparable in intensity with the best static slit lamps for examination of the anterior segment. The compact, ergonomic design provides instant loupe alignment of the slit image for comfortable operation. The HSL150 provides a 10 x 0.2 mm up to 14 x 4 mm slit image for direct focal illumination with an optical section. The ideal alternative for examinations where a static slit lamp is not available or practical to use. This hand-held slit lamp is invaluable for screening, in accident and emergency rooms, and for bed-ridden patients or small children.
